The American Association of Bioanalysts (AAB), founded in 1956, is a professional association representing clinical laboratory directors, owners, managers and supervisors, certified medical technologists, molecular diagnostics technologists, andrology and embryology laboratory scientists, and medical laboratory technicians. AAB is committed to the pursuit of excellence in clinical laboratory management by enhancing the professional skills of each of its members; promoting more efficient and productive operations; and representing the interests of its members. AAB's specialized membership sections include the AAB Associate Member Section (AMS), College of Reproductive Biology (CRB), Environmental Biology and Public Health (EBPH) Section and the National Independent Laboratory Association (NILA). AAB provides a broad range of services, including representation before federal and state legislative and regulatory agencies, educational programs and publications. AAB's Proficiency Testing Service is approved under the federal CLIA regulations and is one of the largest proficiency testing providers in the United States.
