

ENVIRONMENTAL BIOLOGY AND PUBLIC HEALTH SECTION

AAB's **Environmental Biology and Public Health (EBPH) Section** is a special interest group for individuals who have an active interest in the field of environmental biology and public health.

Purpose: To provide a forum for the sharing of knowledge, research and technology in the field of environmental biology and public health and to be an educational resource for the community.

Who can join: Any AAB member in good standing. There are **no** additional dues for joining the EBPH Section.

Objectives:

- Workshops, meetings, and review courses that are focused on the issues of environmental biology and public health.
- Newsletters to inform members of activities.
- Representation before legislative and regulatory bodies.
- Management and administrative information for environmental laboratories.
- Networking with other laboratorians, industrial hygienists, public health officials, government regulators and researchers who are interested in microbiological contamination of air, water and food.

YES, I want to join AAB's Environmental Biology and Public Health Section!
