

College of Reproductive Biology

AAB's **College of Reproductive Biology** is a special interest group for AAB members who desire to actively concentrate on educational opportunities and professional collaboration in the fields of clinical andrology and embryology.

Purpose: To provide a more focused forum for embryologists, andrologists and geneticists (EAGs) to communicate with each other, share ideas and knowledge, and foster closer collaborations.

Who can join: Any AAB member in good standing. There are **no** additional dues for joining CRB.

Objectives:

- Organizing an annual national educational meeting that is focused on the issues of clinical andrology and embryology and promotes the exchange of new ideas among CRB members
- Facilitating regional workshops, meetings, review courses, and scientific sessions that are member initiated, up-to-date and cost effective
- Improving communication among CRB members via email notifications, newsletters, and the CRB web site
- Representation before legislative and regulatory bodies
- Providing a collective voice for its membership to address current ethical, social, and professional concerns
- Establishing of laboratory practice guidelines and recommendations
- Support and coordination of regional and national research collaborations
- Educational opportunities on laboratory management, insurance reimbursement, managed care, and other clinical laboratory issues
- Providing consulting link-ups and a group of experts who can make themselves available to fellow AAB CRB members for consulting and troubleshooting

Additionally, as a CRB member you can take advantage of:

- **FREE** online **CRB Newsletter**
- Special subscription offer to **Reproductive Biomedicine Online**. Available at: http://www.aab.org/aab/Reproductive_BioMedicine.asp

YES, I want to join AAB's College of Reproductive Biology!
